ANNUAL OPERATING BUDGET IMPACT (\$000)

DESCRIPTION

This project provides for the design, fabrication and installation of interior and exterior Wayfinding Signage and Graphics in various Silver Spring public parking garages to improve the user-friendliness/image of the facilities.

Service Area

Silver Spring Parking Lot District.

JUSTIFICATION

Existing garage signage is not uniform and has no graphic applications. In 2002, a Parking Facility Signage Standards Manual was finalized. The manual is to be utilized to develop and implement a standardized system of signs and graphics for all the garages. This will create a consistent quality design, which provides essential information to users of the facilities, as both drivers and pedestrians. The wayfinding program will afford users with essential directional and regulatory information, creating an efficient traffic flow pattern and inviting pedestrian-orientation super-graphics.

Plans and Studies

A review of impacts to pedestrians, bicycles, and ADA requirements (Americans with Disabilities Act of 1991) will be performed and addressed by this project. Traffic signals, streetlights, crosswalks, bus stops, ADA ramps, bikeways, and other pertinent issues will be considered in the design of the project to ensure pedestrian safety.

STATUS

Garage 5 - FY04; Garage 2 & 21 - FY05; Garage 4 & 7 - FY06.
